

# ELECTRONIC CALCULATORS

Casio's Creativity Gets Wider & Wider

General Catalog December, 1990

# CASIO®

# DIGITAL DIARY

The Casio Digital Diary Series provide an exciting selection of innovative new time and data management tools. Each model features large memory capacity, a large display plus the ASCII keyboard layout for quick and easy data input.

The Best-selling Digital Diary

## SF-4000

- Memory capacity: 31,902 characters (approx. 1,500 telephone numbers).
- Schedule function with time sort.
- Full month calendar (Jan. 1901 — Dec. 2099) — any day's schedule recalled from full-month calendar display.
- TEL function • MEMO function • LETTER MEMORY • SECRET function
- EDIT function • Auto display function
- \* 130 hours on three lithium batteries (CR2025).
- \* 14H x 126W x 74mmD — Folded.
- \* 7H x 126W x 145mmD — Unfolded.
- \* 136g.

Strong Compact Case!  
Portable Design!

### Wide screen

32-column x 6-line Wide Screen shows two-month calendar at a glance.  
(SF-9000/SF-9500/SF-7500/SF-8000/SF-7600SP)

### Telephone directory

Enter the first letter of a name and the name is recalled in a moment (Initial search). All data is automatically sorted in alphabetical order.  
(SF-4000/SF-4100/SF-9000/SF-9500/SF-7500/SF-8000/SF-7600SP)

### Business card library

A business Card Library makes it possible to store such vital business information as name, employer name, telephone number, telex number, and much more.  
(SF-9000/SF-9500/SF-7500/SF-8000/SF-7600SP)

### Memo function

The Memo function is suited for storage of all types of data, including: currency exchange rates, price lists, airplane schedules, movie schedules, concert schedules, anniversaries.  
(SF-4000/SF-4100/SF-9000/SF-9500/SF-7500/SF-8000/SF-7600SP)

### Schedule function

A complete schedule can be constructed for both work and play by simply specifying the proper date, month, and year.  
(SF-4000/SF-4100/SF-9000/SF-9500/SF-7500/SF-8000/SF-7600SP)

### Calendar function

A collection of calendars up to the year 2099. A handy set of symbols lets you know at a glance when specific days have events schedules.  
(SF-4000/SF-4100/SF-9000/SF-9500/SF-7500/SF-8000/SF-7600SP)

### Home Time function

Digital quartz clock tells you the hour, minute, second and am/pm.  
(SF-9000/SF-9500/SF-7500/SF-8000/SF-7600SP)

### World time function

World time tells you what time it is at virtually any point on the globe.  
(SF-9000/SF-9500/SF-7500/SF-8000/SF-7600SP)

### Schedule alarm

When a schedule date and time arrives, a message appears on the display and an alarm buzzer sounds.  
(SF-9000/SF-9500/SF-7500/SF-8000/SF-7600SP)

### Secret function

The Secret function keeps personal data private. Once a password is registered, data is locked away until the password is used to access the secret area.  
(SF-4000/SF-4100/SF-9000/SF-9500/SF-7500/SF-8000/SF-7600SP)

### Random search function

The random search function helps to locate data quickly and easily. Enter any part of data item and the unit locates all items that contain the specified characters or numbers, in any portion.  
(SF-4000/SF-4100/SF-9000/SF-9500/SF-7500/SF-8000/SF-7600SP)

### Data communications

Enables data communication between Digital Diary and a personal computer.  
(SF-9000/SF-9500/SF-7500/SF-8000/SF-7600SP)

### Pen printing

Connect the Digital Diary to an optional CP-9 Copy Pen using the data transfer cable (SB-60/SB-61) and you can easily produce hardcopies of Digital Diary data anywhere you want.  
(SF-9000/SF-9500/SF-7600SP)

### IC cards

A choice of IC cards lets you tailor the Digital Diary to perform the functions you need.  
(SF-9000/SF-9500)

## RANDOM SEARCH FUNCTION

The random search function helps to locate data quickly and easily. Enter any part of data item and the SF-4000/SF-4100 locates all items that contain the specified characters of numbers, in any portion.

## SF-9000/SF-9500 Main Functions

### Business Card Library

•A Business Card Library makes it possible to store such vital business information as name, employer name, telephone number, telex number, and much more.

Each item can contain up to 384 characters. When it comes time to recall data, it can be produced in the display at the touch of a key, arranged according to personal name or employer name. A selection of search functions includes direct search, random search, and combined search.

#### Company name display

CASIO TOKYO  
EXPRESS AD  
FC BANK  
FX FINANCE CO., LTD  
GD MOTORS  
SF ELECTRONICS  
BUSICARD

#### Personal data display

CASIO TOKYO 03-347-4811  
BROWN GEORGE  
SALES MANAGER  
CONSUMER PRODUCT DIVISION  
P.O. BOX 25  
6-1, NISHI-SHINJUKU 2-CHOME  
BUSICARD

### Telephone Directory

•A Telephone Directory lets you store names, telephone numbers and addresses.

Each item can contain up to 384 characters. An indexed display shows each entry arranged according to the alphabetical sequence of the names. Finding specific data items is made easy by direct search, random search and combined search.

#### Index display

ANDERSON JOHN 0262-28-9360

### Calendar

•A 2-calendar display with special marks that show you an outline of your scheduled appointments at a glance.

Full month calendars from 1901 through 2099 can be

accessed, two months per display. Dates that contain appointments are flagged with special marks.

### Schedule Keeper

•A Timetable Display that outlines the day's activities. The Schedule Keeper function stores appointment times and details. A Schedule Timetable provides an overview of appointments at a glance.

#### Weekly schedule timetable

#### Dual Calendar display

SCHED

### Schedule Alarm

The Schedule Alarm function of the Digital Diary acts as a handy reminder for appointments. Schedule alarms can be set for each appointment, independent of the appointment time. This means that an alarm can be set for a few minutes before the appointed time as a handy reminder that it's time to get ready.

### Memo

•Memo titles can be called up on an Index Display to help you locate the information you need in an instant.

The Memo function stores and recalls important note,

▲Data input on the go

timetables, price lists, or virtually any other type of data. Each item can contain up to 384 characters. Data items are arranged in the sequence that they are entered. Memo search functions include direct search and random search.

### Home time/World time

•A Timepiece function that provides valuable assistance for time and data management.

The World time function tells what time it is around the globe. Any of the time zones can be specified as the home time. This makes the Digital Diary an important tool for the international business person, as well as anyone else to whom multi-zone timekeeping is important. The Home time also features a daily alarm.

**Easy Data Communications with a Personal Computer**

Connect two Digital Diaries using the SB-60/SB-61 cable to exchange stored data.  
The optional FA-100 interface unit is available with 3.5" and 5.25" disks that contain SFD TOOL software for data communication with an IBM PC/AT or PS/2. Also, SFD TOOL-B software is optionally available to use even with an IBM PC or PC/XT. These software actually give an IBM computer many of the capabilities of the Digital Diary, so you can store Digital Diary data on floppy disks, or input data on the personal computer for later transfer to the Digital Diary. Companies can build entire networks of Digital Diaries centered around a central personal computer.

\*IBM is a registered trademark of IBM Corporation.  
\*Lotus 1-2-3 is a registered trademark of Lotus Development Corporation.

**Interface unit  
FA-100**

\*FA-100 comes with data communication software (SFD TOOL)

**Data communication software (SFD TOOL-B)**

**MF-4000**

**System Requirement for Data communication** \*Processing speed may be much slower with certain IBM PC and PC/XT models because of their clock speed.

Software	IBM computer						Interface unit	RS-232C cable
	Model	RAM	Graphic memory	Display adaptor	RS-232C Interface			
SFD TOOL Standard accessory of FA-100	PC/AT PS/2	512KB	256KB	EGA VGA	Necessary	FA-100	PC/AT: SB-81 (option) PS/2: SB-80 (option)	
SFD TOOL-B* Optionally available MF-4000	PC PC/AT PC/XT PS/2	512KB	Not necessary	CGA, EGA, PGA, MCGA, VGA, 8514/A	Necessary	FA-100	PC/AT: SB-81 (option) PC, PC/XT, PS/2: SB-80 (option)	
MF-10/11/12/13 Optionally available database series	PC PC/AT PC/XT PS/2	256KB	Not necessary	Any	Necessary	FA-100	PC/AT: SB-81 (option) PC, PC/XT, PS/2: SB-80 (option)	
PC link software Standard accessory of ES-630	PC PC/AT PC/XT PS/2	384KB	Not necessary	MDA, CGA, EGA, PGA, MCGA, VGA, 8514/A Hercules	Necessary	FA-100	PC/AT: SB-81 (option) PC, PC/XT, PS/2: SB-80 (option)	

**Data Communication Applications**

Function	Purpose	Example
Floppy disk storage 	•Data backup •Mass storage or storage of data by type.	Storage of Digital Diary data
Data input using personal computer keyboard 	Speedy input of large volume of data	Input of data on personal computer for later transfer to the Digital Diary
Distribution of common data 	Inputting data once and then distributing it to multiple units without further input	Input of data on a personal computer and then distributing it to multiple units
Printout 	Production of hard-copies of data	Printout of data stored in a Digital Diary
Use in conjunction with a personal computer 	Use of a perviously created data base on a personal computer	Using Lotus 1-2-3 data on a Digital Diary

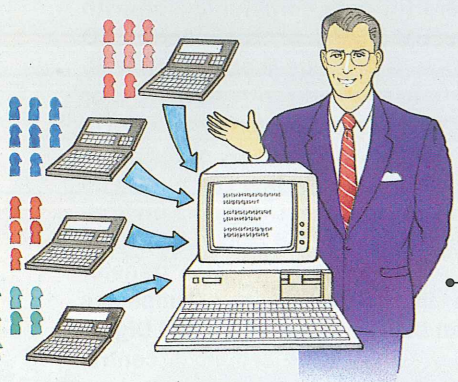

**Data Exchange between Two Digital Diary Units**

Connect two Digital Diary units with a data communication cable (SB-60 or SB-61) and you can exchange data between the two units. This means that data input by one person can be shared among unlimited numbers of others. Data can be transferred anytime and anywhere, as long as you have a cable. And operation is simple, too. Simply select the operation you need from an easy-to-understand menu display. Data can be transferred directly, without going through a personal computer.

SF-7500/SF-8000/SF-9000/  
SF-9500/SF-7600SP

1. Mr. Smith, the sales manager of XYZ Incorporated uses a personal computer to make up price lists with Lotus 1-2-3. Then he converts the price list to Digital Diary format, and transfers it to the personal Digital Diary units of his sales personnel.

2. Mr. Smith, our sales manager, collects information on customer names from the Digital Diary units of his sales force, and uses the data for analysis and reporting.

3. Mr. Jones, one of the salesmen of XYZ Incorporated plans to entertain a very important customer. He downloads information provided by the database software Phone Directory from the personal computer to his Digital Diary. The software provides suggestions on the type of hotel that matches the tastes of this client.

4. Mrs. Smith uses a personal computer to keep track of her favorite recipes. Her daughter, who was recently married, has asked for one of the recipes to cook something special for her husband. Mrs. Smith can quickly locate the recipe she needs and transfer it to her daughter's Digital Diary.

## Pen Print Your Digital Diary Data!

### CP-9

Pen printer for Digital Diary data plus handy copier

- Print data from SF-9500/SF-9000/SF-7600SP
- Print text not stored in SF-9500/SF-9000/SF-7600SP
- 4 character sizes and variable pitch

## Casio Digital Diary Database Series

Easy transfer of data from your favorite data base to your Digital Diary!

Keep worldwide records in the mass storage of your personal computer and transfer the data to your Casio Digital Diary. Operation is simple, and requires no special communication software.

### System Requirement

- IBM PC, PC/AT, PC/XT or PS/2
- At least 256KB of available main memory
- 5.25" floppy disk drive
- MS-DOS V.3.0
- CASIO FA-100 interface unit
- RS-232C cable

### MF-10 WORLD INFORMATION

- Country/airport city information for about 100 countries — IDD call, currency, voltage, airport tax, average temperature, etc.
- Disk size: 5.25", 2D

### MF-11 PHONE DIRECTORY

NORTH/SOUTH AMERICA

- Airlines, rent-a-car, courier services, hotels, emergency

- Airlines, rent-a-car, courier services, hotels, emergency
- Disk size: 5.25", 2D

# NEW CATEGORY

Totally new personal data tools that apply state-of-the-art engineering to create modern electronic masterpieces.

### Data-Cal.

New generation of calculators — Stores phone numbers, credit card numbers, bank account numbers, important dates...

### Quick Dialer

Automatic direct dialing of any number stored. You can store international and local codes for quick one touch dialing.

\*Use with the American standard DTMF system push button telephone.

### Telephone directory

All data is automatically sorted in alphabetical order. Enter the first letter of a name and the name is recalled in a moment (Initial search).  
(DC-6000/DC-3000/DC-1000/DC-850/DC-830/DC-150A/DC-160/DC-760/DC-750A/DC-750C/QD-700/QD-350/QD-150)

### Schedule function

A complete schedule can be constructed for both work and play by simply specifying the proper date, month, and year.  
(DC-6000/DC-3000/DC-850/DC-830)

### Clock

Digital quartz clock tells you the hour, minute, second and am/pm.  
(DC-6000/DC-1000/DC-850/DC-830/QD-700)  
The hourly time signal is given every hour on the hour.  
(DC-6000/DC-1000/DC-850/DC-830/QD-700)

### World time function

World time tells you what time it is at virtually any point on the globe.  
(DC-6000/DC-1000/QD-700)

### Schedule alarm

When a schedule date and time arrives, a message appears on the display and an alarm buzzer sounds.  
(DC-6000/DC-850/DC-830)

### Tel Alarm

Up to three TEL Alarms can be set to remind you of important calls. At the preset time, a 20-second alarm sounds and the number to be dialed appears on the display.  
(QD-700)

### Profit margin percent

☑ key gives quick access to prices and profit, and also delivers add-ons, discounts, ratios, increase/decrease values and regular percentages.  
(All models except DC-1000/CP-9/TR-100)

### Travel Translator

Travel Translator comes preprogrammed with commonly used travel terms in English, Spanish and French. In addition, you get sentences that let you instantly express yourself in three languages.

### Handy Copy

The Handy Copy is entirely different from any plain paper copier or hand-held copier, it copies any text directly onto any flat, smooth surface with a pass of the hand. In fact, the Handy Copy is so small that it goes along anywhere, ready for copying whenever you are.

### Function command signs

A press of any function key brings a sign to the display, +, -, x, /. So no more worries about being in the wrong mode.  
(All models except DC-1000/CP-9/TR-100)

### Auto dial function

Pressing the key after recalling the desired telephone number automatically dials the displayed number.  
(QD-700/QD-350/QD-150)

### Metric conversion

The metric conversion function is programmed with metric units that you can use for quick and easy conversions.  
(DC-6000/DC-3000/DC-850/TR-100)

### Currency conversion

The currency conversion function lets you instantly calculate from one currency to another.  
(DC-6000/DC-3000/DC-850/TR-100)

### Secret function

The Secret function keeps personal data private. Once a password is registered, data is locked away until the password is used to access the secret area.  
(DC-6000/DC-3000/DC-850/DC-830/DC-150A/DC-160/DC-760/DC-750A/DC-750C/QD-700/QD-350/QD-150)

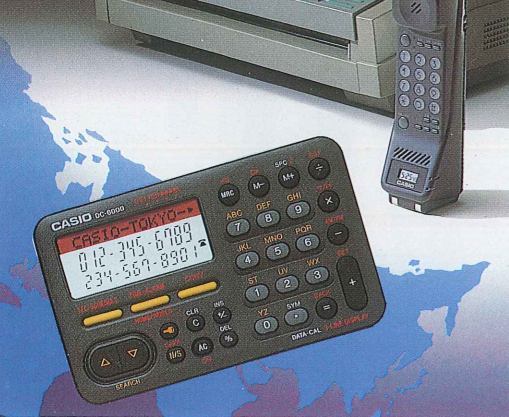

### 36 digit scrolling function

Stores data items up to 36 digits long, such as international telephone numbers, departure and arrival time for airplanes.  
(DC-850/DC-830/DC-150A/DC-160/DC-750A/DC-750C/DC-760/QD-700/QD-350/QD-150) (56 digits for DC-1000)

# HANDY COPY

## 2-in-1 Copier and Pen Printer

Now make copies of originals anytime, anywhere!  
And print data from your Digital Diary!

Prints data from a Casio SF-9500/SF-9000/SF-7600SP Digital Diary

# FINANCIAL

In a world that is shrinking every day, accurate, reliable data is becoming more essential to the modern business person. Casio financial calculator provide the financial calculation capabilities vital to success.

### Financial Consultant

No more struggling through compound interest, amortization, or investment appraisal calculations. Wide applicability for everyone from students to bankers, securities dealers, and other professionals.

### Compound interest calculations

One-touch determination of principal, total of principal and interest, interest rate, period, and installment savings account. (FC-1000/FC-200/FC-100)

### Investment appraisal

Appraise investments accurately through net present value and internal rate of return. (FC-1000/FC-200/FC-100)

### Bond calculations

The bond calculation function lets you perform both bond price and yield to maturity. Also, by specifying a call price, you can calculate the accrued interest for a coupon payment date before maturity. (FC-1000)

### Depreciation

Depreciation can be calculated using either straight line depreciation, sum-of-the-years' digits, or declining balance. (FC-1000)

### Programming function

Combine financial, statistical, and scientific functions to create powerful customized programs. (FC-1000/FC-200)

### Menu operation

A series of menus guides you through selections of a wide variety of financial calculation functions. Simply locate the function you need and use the function keys (F1 through F5) to enter data a prompted on the display. (FC-1000)

### Full display of data

All values currently assigned to variables are displayed at a touch. For both manual and programmed calculations, you get more data on the display at once, so editing and corrections go quicker and easier. (FC-1000)

### Regression analysis

Select from 4 different types of regression analysis calculations, including linear regression, for comprehensive forecasting and analysis capabilities. (FC-1000/FC-200/FC-100)

### Graphic function

Simple interest, compound interest, investment appraisal and bond calculation results become easier to follow when shown on a cash flow graph. Loan amortization and depreciation graphs put years of important data into perspective right on the display. (FC-1000)

### COPY PEN CP-9

- Copies section 8mm wide so you get only the sections that you want.
- Besides easy portability, compact configuration lets you print in narrow spaces.
- Repeat function lets you make multiple copies with a single read operation.
- Edge cut function lets you copy only the areas you want.
- Pause function lets you insert line changes where you want them.
- Adjustable print density
- Prints data from an SF-9500/SF-9000/SF-7600SP Digital Diary (Print data from Digital Diary memory, Print text not stored in Digital Diary memory, 4 character sizes and variable pitch)
- \*Rechargeable battery (NP-612)
- \*139H x 33W x 34mmD, 155g.

### READING

- 1) Switch power ON and set the mode switch to GRAPHIC.
  - 2) Press the READ button.
  - 3) Set the COPY PEN onto the original to be copied. (Fig. 1)
  - 4) Slowly move the COPY PEN along the direction mark printed on the unit. (Fig. 2)
  - 5) Remove the COPY PEN from the original, and confirm that a single beep sounds. (Fig. 3)
- \*Set the mode switch to WORD before beginning read operation if you copy only the areas you want.

### PRINTING

- 1) Turn upside of the unit down.
  - 2) Press the PRINT button.
  - 3) Set the COPY PEN onto the surface on which you wish to print. (Fig. 4)
  - 4) Slowly move the COPY PEN along the direction mark printed on the unit. (Fig. 5)
- \*You can print the memory contents as many times as you wish by repeating the printing procedure from step 3 after pressing the PRINT button.

### Standard accessories

**Ink ribbon cassettes (IR-16BK)** (Black)

Three cassettes are included as accessories

**Battery charger (CHA-8HC)**  
Brings the COPY PEN top a full charge in about eight hours.

### Options

**Hard case**

**Rechargeable battery (NP-612)**

### Ink ribbon cassettes (IR-16)

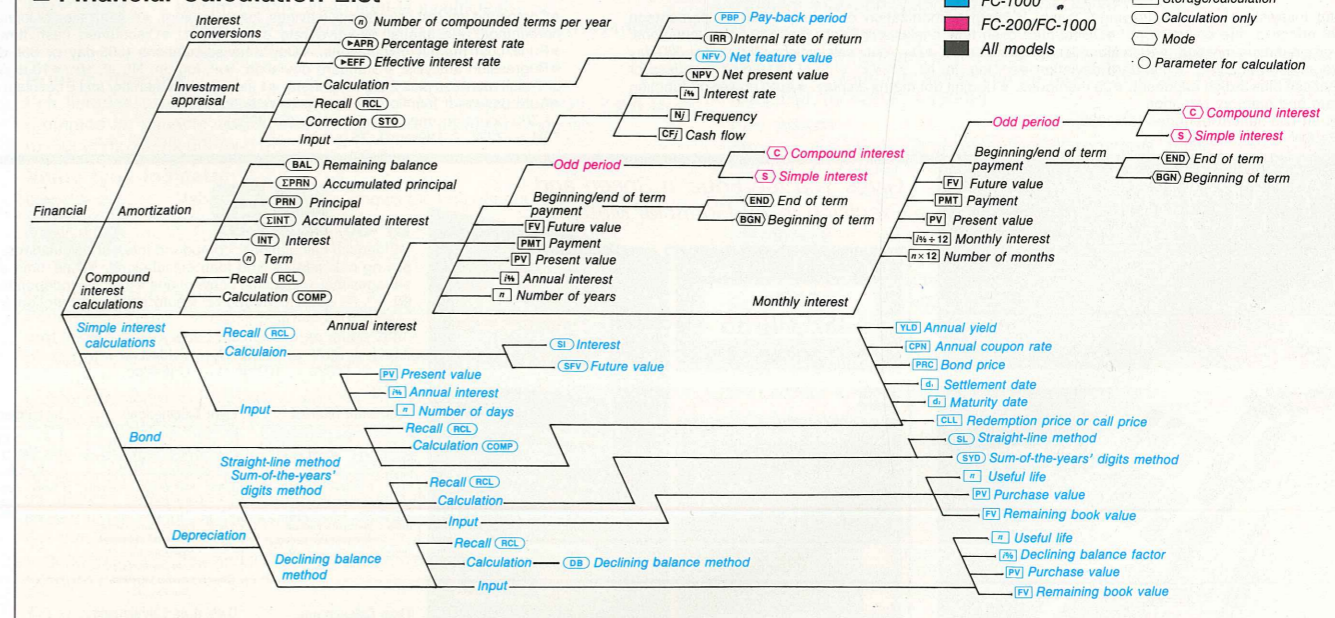

BU (BLUE) RD (RED) GD (GOLD) SR (SILVER)

Optional ink ribbon cassettes also available in gold, silver, black, blue and red for attractive variations

### 60 cm long transfer cable for CP-9 (SB-61)

Using the cable you can connect CP-9 with SF-9000/9500/7600SP and transfer data from SF-9000/9500/7600SP to CP-9.  
\*SF-9000 comes with a 30 cm long transfer cable (SB-60)

# SCIENTIFIC

The comprehensive range has been extended to meet the needs of people delving into advanced math, from the student to the scientist. They are right for colleges, industry and a broad spectrum of professional uses.

$$\int_1^5 (2x^2 + 3x + 8) dx$$

### Scientific Formula

The most often applicable scientific formulas are built in. Simply enter a number of the desired formula. Then just enter the required values and the result is displayed in an instant.

### Electric Formula

This calculator is specially designed to perform electric and electronic calculations. An impedance calculation function is equipped for invaluable assistance in design of filters, power supplies, and other analog circuits. Also comes equipped with the most commonly used electric and electronic formulas built in.

### Programmable

Simply enter the calculation the way it is written — no special programming knowledge required. Makes short work out of complex repeat calculations.

### Graphic Scientific

Now see graphs of formulas produced right on the display! Analyze data characteristics and trends at a glance.

**Number of functions/scientific functions**  
 In accordance with the Japan Business Machine Association policies, Casio will henceforth express the number of scientific functions available as noted below. This will separate standard and non-standard functions to allow end users to more precisely compare models produced by competing manufacturers. In addition, such special functions as programming, graphing and others will be counted separately as special functions\*.

**Example**

112 FUNCTIONS	Total of standard functions and special functions
Incl. 85 SCIENTIFIC FUNCTIONS	Number of scientific functions

\*Special functions  
 Programming, graphing, built-in formulas, memo, formula memory, integrals, replay, answer memory, insert, malstatement.

**C-power**  
 Unlike conventional solar calculators, C-power models can be used even in total darkness. Solar powered in the sunlight, these models automatically switch over to a 7-year lithium battery when light is insufficient.  
 (fx-85V/fx-115V/fx-991V/fx-992V/fx-451M/fx-3400P/fx-3600PV/fx-10F/fx-50F/fx-61F)

**Built-in formula**  
 Full libraries of often-used formulas built in for one-touch recall! Input is prompted for variable values with results produced instantaneously.  
 (fx-5000F/fx-10F/fx-50F/fx-61F)

**Value type indicator**  
 Value Type Indicator shows the unit of measurements (complex number calculations, engineering symbol calculations,  $\pi$ , coordinate conversions)  
 (fx-100D/fx-570AD/fx-570CD)

**Regression analysis**  
 Four types of paired variable regression calculations. Calculations include constant term, regression coefficient, correlation coefficient and estimated values.  
 (fx-5500L/OH-7000G/fx-7500G/fx-7000GA/fx-8500G/fx-85V/fx-100D/fx-100V/fx-115V/fx-991V/fx-992V/fx-570AD/fx-570CD/fx-570AV/fx-570CV/fx-580/fx-3400P/fx-3600P/fx-3600PV/fx-3800P/fx-4000P/fx-4100P/fx-4200P/fx-4500P/fx-5200P/fx-5000F/fx-10F/fx-50F)

**Base calculations/conversions, logical operations**  
 An expansive range of functions for specialized usage in hi-tech roles such as address calculations and internal circuit design.  
 (fx-5500L/OH-7000G/fx-7500G/fx-7000GA/fx-8500G/fx-100D/fx-100V/fx-115V/fx-135V/fx-991V/fx-992V/fx-451M/fx-570AD/fx-570CD/fx-570AV/fx-570CV/fx-580/fx-3400P/fx-3600PV/fx-3800P/fx-4000P/fx-4100P/fx-4200P/fx-4500P/FX-603P/fx-5000F/fx-10F/fx-50F/fx-61F)

**True algebraic logic**  
 Automatically determines priorities in for computation.  
 (All models)

**Physical constants**  
 Many commonly used physical constants such as the Speed of light in space, Planck constant and Electron rest mass are built in, for fast one-touch recall and resolution.  
 (fx-991V/fx-992V/fx-451M/fx-570AD/fx-570CD/fx-570AV/fx-570CV/fx-3400P/fx-5200P/fx-5000F/fx-50F)

**Complex number calculations**  
 Arithmetic calculations, arguments, conjugate complex numbers, absolute value calculations using complex numbers.  
 (fx-5500L/fx-100D/fx-570AD/fx-570CD/fx-580)

**Learn program**  
 Simply enter a formula for repeat execution. No special programming knowledge required.  
 (OH-7000G/fx-7500G/fx-7000GA/fx-8500G/fx-3400P/fx-3600P/fx-3600PV/fx-3800P/fx-4000P/fx-4500P/FX-602P/FX-603P/fx-10F/fx-50F/fx-61F)

**Formula memory**  
 Enter a formula and store it in memory with the touch of a key. Values are prompted for variables — simply enter the correct values to calculate results.  
 (fx-5500L/fx-4100P/fx-4200P/fx-4500P/fx-5000F)

**Memo function**  
 Storage of a multitude of formulas and constants, limited only by memory capacity. Any formula stored can be recalled into the Formula memory for execution.  
 (fx-4200P/fx-4500P)

**File editor**  
 Storage of a multitude of formulas and constants, limited only by memory capacity.  
 (fx-8500G)

**Dot matrix display**  
 Dot matrix format allows display of alphanumeric characters, so formula input can be confirmed easily on the display.  
 (fx-5500L/OH-7000G/fx-7500G/fx-7000GA/fx-8500G/fx-580/fx-4000P/fx-4100P/fx-4200P/fx-4500P/fx-5200P/FX-602P/FX-603P/fx-5000F)

**Graphic function**  
 20 built-in graphs plus trace, plot and overwrite capabilities for user-generated graphs. Statistical graphs can also be produced.  
 (OH-7000G/fx-7500G/fx-7000GA/fx-8500G)

**Replay function**  
 Execute a formula and then recall it back to the display for confirmation or changes. Formulas that produce errors are recalled automatically.  
 (fx-5500L/OH-7000G/fx-7500G/fx-7000GA/fx-8500G/fx-4000P/fx-4100P/fx-4200P/fx-4500P/fx-5000F)

**Hi-speed super-fx**  
 Calculates 2.5 times faster than previous models.  
 (fx-85V/fx-100D/fx-100V/fx-115V/fx-991V/fx-992V/fx-570AD/fx-570CD/fx-570AV/fx-570CV/fx-3600PV)

# 6-Function Scientific Library Built In!

Function Menu selection makes operation quick and easy!

NEW!

Wallet Type  
fx-5500L

123 FUNCTIONS  
incl. 119 SCIENTIFIC FUNCTIONS

2-LINE  
BIG  
DISPLAY

DOT  
MATRIX

- Built-in 6-function Scientific Library
- 2-line dot matrix display shows formulas and results simultaneously.
- Perfect entry system
- Formula memory (1,095 steps)
- Instant replay function
- Power source:  
Main power source — two lithium batteries (CR2032)  
Memory protection — one lithium battery (CR2032)
- Battery life: Main power source — approximately 350 hours
- \* 9.9H × 73W × 141.5mmD, 92g.

## SCIENTIFIC LIBRARY

### 1 Matrix Operations

- **[SHIFT][F1]** displays the Matrix Operation menu, which gives you a choice of the following functions.
- Addition, subtraction, multiplication
- Scalar product • Transposed matrix
- Determinant • Inverse matrix
- Matrix A/Matrix B exchange
- Matrix C transfer

### 2 Equations

- **[SHIFT][F2]** displays the Equation Menu that can be used for the following calculations.
- Quadratic equations
- Simultaneous equations (1 unknown through 4 unknowns)

### 3 Integrations

- **[SHIFT][F3]** displays the Integration Menu for integration calculations.

### 4 Complex Number Calculations

- **[SHIFT][F4]** displays the Complex Number Calculation Menu, with the following capabilities.
- Arithmetic operations • Conjugate complex numbers
- Arguments • Absolute values • Real number extraction
- Imaginary number extraction

### 5 Base-n Calculations

- **[SHIFT][F5]** displays the Base-n Menu, for the following calculations.
- Base-n conversions • Base-n calculations
- Logical operations • Negative values
- Complementary numbers

### 6 Statistics

- **[SHIFT][F6]** displays the Statistics Menu, which provides the following calculations.
- Single-variable statistics
- Paired-variable statistics

### 1 Matrix Operations

MATRIX  
A B + - × OP

### 2 Equations

EQUATION  
 $x^2 AX=b$

### 3 Integrations

INTEGRATION  
f OUT a b dx n

### 4 Complex Number Calculations

COMPLEX  
i R+P z ReC ImC

### 5 Base-n Calculations

BASE-N  
D4 H B O dmo L

### 6 Statistics

STATISTICS  
SD LR

## Operation Example

Example) To solve the following 3-unknown simultaneous equations.

$$\begin{aligned} 2x_1 + 3x_2 - x_3 &= 15 \\ 3x_1 - 2x_2 + 2x_3 &= 4 \\ 5x_1 + 3x_2 - 4x_3 &= 9 \end{aligned}$$

The diagram illustrates the following steps:

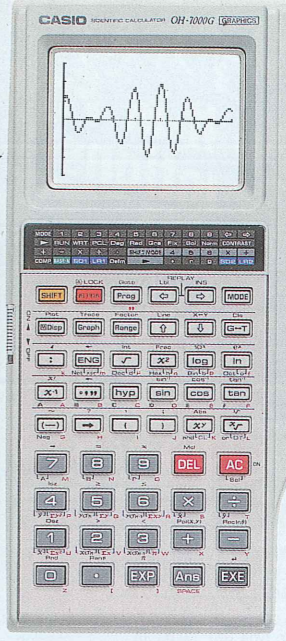

- Inputting the matrix:** The user enters the coefficients into a 3x3 matrix. The display shows:  $\begin{bmatrix} 2 & 3 & -1 \\ 3 & -2 & 2 \\ 5 & 3 & -4 \end{bmatrix} \begin{bmatrix} b_1 \\ b_2 \\ b_3 \end{bmatrix} = \begin{bmatrix} 15 \\ 4 \\ 9 \end{bmatrix}$
- Solving for x1:** The user selects the equation menu and solves for the first variable. The display shows:  $x_1 = 2$
- Solving for x2:** The user solves for the second variable. The display shows:  $x_2 = 5$
- Solving for x3:** The user solves for the third variable. The display shows:  $x_3 = 4$

The above results indicate the following results for the 3 unknowns.

Model	Display	Display capacity	Mantissa + EXP	No. of program steps	No. of memories	Checking and editing	No. of functions (No. of scientific functions)	Basic functions**	Regression analysis/SD	HYP	%	a <sup>b</sup> /c	Base-n calculation	Others

- Base conversions/calculations, logical operations.
- \* 100 hours on three lithium batteries (CR2032).
- \* 14H × 83.5W × 167mmD, 152g.

■ STN Liquid Crystal Display  
The STN (super twisted nematic) liquid crystal increases the twist of the conventional TN (twisted nematic) liquid crystal from 90° to a full 270°. This dramatically increases the rate at which light emitted from the display is cut off, for higher contrast and a wider viewing angle.

## Expanded Memory Capacity, Powerful Graphic Functions, Plus Control over External Output Devices

11,555 Steps of Memory Capacity for Unlimited Calculation Potential

fx-8500G

- Display: Text — 16 columns × 8 lines (128 characters). Graphics — 96 × 64 dots.
- High utility variation of program steps and data memories.

6,566 steps 26 memories ↔ 6 steps 846 memories

- Graphic functions (Graph composition, Trace, Plot, Line, Magnification/Reduction, Coordinate range designation, Overwrite, Statistical graph, Instant factor).
- File editor function (4,989 steps)
- Print function (graphs, programs, memories, files, graph ranges, calculation results, etc.)
- Data recorder functions (SAVE, LOAD, VERIFY)
- Perfect entry system
- Instant replay function
- Regression analysis
- Base conversions/calculations, logical operations.
- \* 100 hours on three lithium batteries (CR2032).
- \* 17.6H × 84W × 180mmD, 190g.
- \* Comes with pouch.

Interface Unit for the fx-8500G

- FA-80
- Centronics standard printer interface
- Cassette interface
- \* 2 way power source: AC (AD-4150 adaptor) or DC (five AA size batteries)
- \* 37H × 200W × 194mmD, 500g.

 •Base conversions/calculations •Logical operations  
 •9 physical constants •Regression analysis •7 memories  
 •fx-570AV — 1,000 hours on one LR54 (LR1130) battery (4,700 hours on type SR54 (SR1130)).  
 •fx-570CV — 2,700 hours on one LR44 battery (10,000 hours on type SR44 (G-13)).  
 •10H x 73W x 140mmD  
 •fx-570AV 62g/fx-570CV 66g.

116 Ways to Handle Hi-tech! Complex Number Calculations on a Dot Matrix Display

116 SCIENTIFIC FUNCTIONS 12 DIGITS OF 10+2 DIGITS DOT MATRIX

**fx-580**  
 •Dot matrix display •Complex number calculations (arithmetic operations, arguments, conjugate complex numbers, absolute values)  
 •Unit symbol calculations (7 types of symbols)  
 •Engineering symbol calculations (12 types of symbols)  
 •Base conversions/calculations •Logical operations  
 •Regression analysis •7 memories  
 •Auto power-off function with memory retention  
 •350 hours on two lithium batteries (CR2032).  
 •9.2H x 72W x 131mmD, 86g.

Simple Programmability & Integrals

68 FUNCTIONS incl. 63 SCIENTIFIC FUNCTIONS 10+2 DIGITS

**fx-3600P**  
 •Simple programming (38 steps) •Integrals  
 •Regression analysis •7 memories  
 •Auto power-off function with program and memory retention  
 •1,300 hours on one lithium battery (CR2025).  
 •8.7H x 71.5W x 134mmD, 64g.

Calculates 2.5 Times Faster than Previous Models.

94 FUNCTIONS incl. 90 SCIENTIFIC FUNCTIONS 10+2 DIGITS HI-SPEED SUPER-FX

**fx-3600PV**  
 Protects memory no matter what the light conditions.  
 •Simple programming (38 steps) •Integrals  
 •Base conversions/calculations •Logical operations  
 •Regression analysis •7 memories  
 •9.9H x 73W x 140mmD, 60g.

135 Program Steps & 79 Scientific Functions

88 FUNCTIONS incl. 79 SCIENTIFIC FUNCTIONS 10+2 DIGITS

**fx-3800P**  
 •Simple programming (135 steps) •Regression analysis  
 •7 memories •4 independent program areas  
 •Base conversions/calculations  
 •Auto power-off function with program and memory retention  
 •1,300 hours on one lithium battery (CR2025).  
 •9H x 72W x 129mmD, 75g.

CARD TYPE

38 SCIENTIFIC FUNCTIONS 8 DIGITS OF 6+2 DIGITS

**fx-68**  
 •Auto power-off function  
 •100 hours on two LR1130 batteries (500 hours on type SR1130 (G-10)).  
 •4.7H x 54W x 91mmD, 44g.

43 SCIENTIFIC FUNCTIONS 10 DIGITS OF 8+2 DIGITS

**fx-78**  
 •Auto power-off function with memory retention  
 •230 hours on two LR1130 batteries (1,000 hours on type SR1130 (G-10)).  
 •4.7H x 54W x 91mmD, 42g.

PROGRAMMABLE

Powerful 98 Scientific Functions Plus Programming Function

101 FUNCTIONS incl. 98 SCIENTIFIC FUNCTIONS 10+2 DIGITS C-POWER

**fx-3400P**  
 Protects memory no matter what the light conditions.  
 •Simple programming (29 steps) •Base conversions/calculations  
 •Logical operations •9 physical constants  
 •Regression analysis •7 memories  
 •8.5H x 73W x 140mmD, 59g.

As many as 86 Scientific Functions, 550 (max.) Program Steps, 94 (max.) Memories

102 FUNCTIONS incl. 86 SCIENTIFIC FUNCTIONS 12 character display DOT MATRIX

**fx-4000P**  
 •Alphabetic dot matrix display  
 •High utility variation of program steps and data memories.  
 550 steps 26 memories ↔ 6 steps 94 memories  
 •Jump commands for programming •10 independent program areas  
 •Perfect entry system •Check-back replay function  
 •Regression analysis •Base conversions/calculations  
 •Logical operations  
 •450 hours on two lithium batteries (CR2032).  
 •9.5H x 71.5W x 132.5mmD, 87g.

12-digit Dot Matrix Display and Formula Memory

102 FUNCTIONS incl. 92 SCIENTIFIC FUNCTIONS 12 character display DOT MATRIX

**fx-4100P**  
 •Alphabetic dot matrix display •Perfect entry system •Formula memory  
 •Base conversions/calculations •Logical operations  
 •Regression analysis •Check-back replay function  
 •5,500 hours on one lithium battery (CR2032)  
 •9H x 73W x 129mmD, 71g.

12-digit Dot Matrix Display, 279-step Memo Function and Formula Memory

104 FUNCTIONS incl. 92 SCIENTIFIC FUNCTIONS 12 character display DOT MATRIX

**fx-4200P**  
 •Alphabetic dot matrix display •Perfect entry system  
 •Memo function (279 steps) •Formula memory (63 steps)  
 •Base conversions/calculations •Logical operations  
 •Regression analysis •Check-back replay function  
 •5,500 hours on one lithium battery (CR2032)  
 •9H x 73W x 129mmD, 71g.

### 2-tier Display Configuration

2-tier display shows formulas and results simultaneously. Formulas appear on the dot matrix just as they are written, while the lower display is used for calculation results.

### Fraction and Integral Calculations Displayed as Written

$\log 2 = 0.301029995$

$\frac{2}{3} + \frac{5}{8} = 1.291666667$

$\int (2x^2 + 3x + 8) dx = 150.6666667$

### Programming Functions

**•Large memory capacity**  
The 1,103-step memory of fx-4500P provides more room for programs.

**•Easy programming**  
Program is easy, because you can enter formulas as they are written.

**•Program file storage**  
The file system of the fx-4500P lets you store multiple programs under their own filenames. Then when you want a specific program, simply enter its filename to recall it. Each file can contain up to 127 steps.

### Formula memory

Any formula you use regularly can be stored with a tap of the [M] key, then you simply enter variable values. It takes away the tedium of repeat computations such as required for proportional calculations.

### Replay function

The Replay function lets you recall a formula after it is executed. This means that you can check for mistakes, or even make minor changes to execute it again. If the calculator finds an error, it immediately displays it for correction.

**Scientific Calculating Unlimited**

Wallet Type **fx-4500P**

124 FUNCTIONS incl. 97 SCIENTIFIC FUNCTIONS

2-LINE BIG DISPLAY

DOT MATRIX

1,103 steps 26 memories

7 steps 163 memories

•2-tier display shows formulas and results simultaneously.

•High utility variation of program steps and data memories.

•Program file system for storing multiple programs.

•Perfect entry system

•Instant replay function

•Integrals

•Regression analysis

•Base conversions/calculations

•Logical operations

\*3,000 hours on one lithium battery (CR2025).

\*9.2H x 73W x 141.5mmD, 93g.

## 72 Scientific Functions Plus BASIC Programming Capabilities

**fx-5200P** Magic Touch Leaf Keys

•RAM capacity — Standard 1K bytes (2K bytes with OR-1 (RAM pack))

•Alphabetic dot matrix display (upper/lower case letters of the alphabet, numbers, symbols and special characters).

•10 independent program areas

•9 physical constants

\*145 hours on two lithium batteries (CR2032).

\*13H x 87W x 139.5mmD — Folded.

\*10.4H x 180.5W x 139.5mmD — Unfolded.

\*146g. \*Comes with "Easy Guide to Programming".

## CASIO CHANGES SCIENTIFIC CALCULATION

Mathematics, physics, electronics, statistics. 128 powerful scientific formulas built in. Also add your own formulas in a handy Formula Memory.

128 of the most often applicable scientific formulas are built in. Simply enter the number of the desired formula to display it on the screen. A 2-line screen lets the recalled formula remain while prompts guide the operator through required variable input. Never has operation of a sophisticated scientific calculator been simpler.

**fx-5000F**

105 FUNCTIONS incl. 95 SCIENTIFIC FUNCTIONS

2-LINE BIG DISPLAY

DOT MATRIX

•128 built-in formulas for mathematics, physics, electricity, mechanics and statistical applications.

•Formula memory keeps up to 12 user generated formulas for repeat calculations (max. 675 steps).

•Large, 2-line display for at-a-glance readouts of formulas.

•Perfect entry system

•Check-back replay function

•Regression analysis

•Base conversions/calculations, logical operations

•13 physical constants

\*790 hours on two lithium batteries (CR2032).

\*9.2H x 72W x 131mmD, 93g.

\*Comes with wallet-type case.

BUILT-IN 128 FORMULA LIST	
MATHEMATICS	STATISTICS
1 Quadratic equation solution	103 Probability function of binomial distribution
2 Simultaneous linear equation with two unknowns	104 Probability function of Poisson's distribution
3 Simultaneous linear equation with three unknowns	105 Probability function of geometric distribution
4 Cosine theorem	106 Probability function of hypergeometric distribution
5 Heron's formula	107 Probability function of exponential distribution
6 Area of a triangle	108 Probability function of uniform distribution
7 Sine theorem (1)	109 Normal distribution probability density function
8 Sine theorem (2)	110 Normal probability function
9 Rectangular-polar coordinate conversion	111 Deviation
10 Polar-rectangular coordinate conversion	
11 Logarithm with random base	
12 Permutation	
13 Combination	
14 Repeated permutation	
15 Repeated combination	
16 Sum of arithmetic progression	
17 Sum of geometric progression	
18 Sum of squares	
19 Sum of cubes	
20 Inner product	
21 Angle formed by vector	
22 Distance between two points	
23 Distance between point and straight line	
24 Angle of intersect for two straight lines	
25 Area of a triangle	
26 Area of a rectangle	
27 Area of a parallelogram (1)	
28 Area of a parallelogram (2)	
29 Area of a trapezoid	
30 Area of a circle	
31 Area of a sector (1)	
32 Area of a sector (2)	
33 Area of an ellipse	
34 Volume of a sphere	
35 Surface area of a sphere	
36 Volume of a circular cylinder	
37 Lateral area of a circular cylinder	
38 Volume of a pyramid	
39 Volume of a circular cone	
40 Lateral area of a circular cone	
41 Acceleration	
42 Distance of advance	
43 Distance of adv	
44 Law of universal gravitation	
45 Cycle of circular motion (1)	
46 Cycle of circular motion (2)	
47 Cycle of circular motion (3)	
48 Simple harmonic motion (1)	
49 Simple harmonic motion (2)	
50 Cycle of spring pendulum	
51 Simple pendulum (1)

**512 (max.) Program Steps, 88 (max.) Memories.**

71 FUNCTIONS incl. 52 SCIENTIFIC FUNCTIONS

11 character display

DOT MATRIX

**FX-602P**

•Alphabetic dot matrix display

•High utility variation of program steps and data memories.

512 steps 22 memories

32 steps 88 memories

•10 independent program areas

•True algebraic logic operation

•Standard deviations

\*660 hours on two lithium batteries (CR2032).

\*9.6H x 71W x 141.2mmD, 100g.

\*Comes with "Program Library".

## New Pocket Computer to Meet the Needs of the New Decade

2-tier Dot Matrix Display, More Memory Capacity, and Faster Computing Speed

**Wallet Type FX-603P**

99 FUNCTIONS incl. 74 SCIENTIFIC FUNCTIONS

2-LINE BIG DISPLAY

DOT MATRIX

•2-tier dot matrix display

•6,144 program steps

•110 memories

•20 independent program areas

•Base calculations/conversions

•Logical operations

•Standard deviations

\*Power source: Main power source — two lithium batteries (CR2032).

Memory protection — one lithium battery (CR2032).

\*Battery life: Main power source — 370 hours.

\*12.9H x 78W x 155.5mmD, 136g.

•6,144-step (fixed) program area

12 times more than the memory capacity of the FX-602P makes it possible to store even long, complex programs. Memory can be divided among 20 program areas for simultaneous storage of multiple programs that can even be called as subroutines by other programs.

•110 (fixed) independent memories

Since the number of memories is fixed, there is no need to match the number of steps with the number of memories during programming. The large number of memories provides plenty of room for the storage of numeric data.

•16-digit x 2-line easy-to-read display

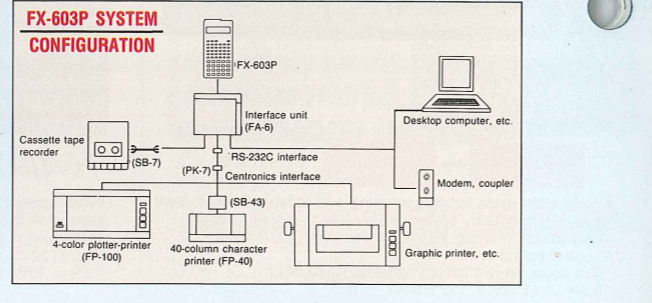

A 2-tier display makes it possible to simultaneously display text and values.

•PEEK and POKE commands

These commands let you directly read from and write to specific memory address locations. These commands let you change the speed and phase for cassette tape recorder save/recall operations, make RS-232C parameter settings, and output Centronics printer codes.

•Upwardly compatible with the FX-602P

Any FX-602P programs (except music programs) can be saved using a data recorder and then loaded into the FX-603P.

**23 Scientific Formulas Built-in**

10 + 2 DIGITS

C-POWER

**fx-50F** (Wallet Type)

101 FUNCTIONS incl. 97 SCIENTIFIC FUNCTIONS

**fx-10F** (Handy Type)

92 FUNCTIONS incl. 88 SCIENTIFIC FUNCTIONS

Protects memory no matter what the light conditions.

•23 built-in formulas for mathematics, physics, electricity, mechanics and statistical applications.

•Simple programming function keeps 2 user generated formulas for repeat calculations (max 29 steps).

•Large 10-digit display also has alphabetic prompt for formula use.

•Regression analysis

•Base conversions/calculations, logical operations

•9 physical constants. (fx-50F)

\*8H x 73W x 140mmD, 68g — fx-50F, 16H x 73W x 140mmD, 74g — fx-10F.

**Built-in Powerful Functions for Electrical and Electronic Applications**

85 FUNCTIONS incl. 80 SCIENTIFIC FUNCTIONS

10 + 2 DIGITS

C-POWER

**fx-61F**

Protects memory no matter what the light conditions.

•Impedance calculations (parallel/serial/mixed circuits)

•27 built-in for formulas for electricity and electronics

•Simple programming function (30 steps)

•Large 10-digit display also has alphabetic prompt for formula use.

•Standard deviation

•Base conversions/calculations

\*8.5H x 73W x 140mmD, 68g.

**Impedance calculations**

The powerful impedance calculation keys of the fx-61F allow one-touch calculations of composite impedance for AC circuits (parallel/serial/mixed) that include resistors, coils, and capacitors. This function also lets you calculate the absolute value and deviation angle of the calculated composite impedance.

$$f = f_0 \text{ [Hz]}$$

$$\frac{1}{Z} = \frac{1}{R} + \frac{1}{j\omega L} + \frac{1}{-j\omega C}$$

$$Z = \frac{R^2 + \omega^2 L^2}{R^2 + \omega^2 L^2 - \omega^2 C^2} + j\left(\frac{\omega R^2 L}{R^2 + \omega^2 L^2} - \frac{1}{\omega C}\right)$$

•Key operation using a conventional scientific calculator

•Key operation using fx-61F

# POCKET COMPUTER

With the computer world opening up to the non-specialist, these trim personal models offer the perfect opportunity for the businessman, engineer, researcher, student, etc. to enter into modern data handling.

### Super Pocket Computer

The custom CPU provides high speed processing and a larger capacity memory than ever before possible.

### Scientific Library

A full library of useful scientific formulas built in. 116 formulas include mathematics, chemistry, physics, electricity, statistics, and others.

### Screen touch keys

A set of 16 touch keys are built right into the screen, so key input can be performed by simply touching the screen. (PB-1000)

### 3.5" floppy disk

Approximately 320KB of programming and data storeable on 3.5" floppy disks for large-volume data processing and high-level program execution. (MD-100)

### 4-color plotter-printer

Print text, graphics, and tables in 4 colors on A4 size paper. (FP-100)

### Data bank function

Data bank can hold private memoranda such as price list, names and numbers, addresses, dates, etc. (FX-880P/FX-850P/PB-2000C/PB-1000/PB-120/FX-790P/FX-795P)

The Data bank combined with BASIC provides an expansive range of duties. (FX-880P/FX-850P/PB-120/FX-790P/FX-795P)

### Centronics standard interface

Allows connection of Centronics standard printers. (MD-100/FA-7/FA-6)

### RS-232C port

For direct connection to a desktop computer or connection of two units for data transfers. (MD-100/FA-7/FA-6)

### Mathematical Library

A mathematical library of matrix calculations, complex number calculations, numeric solution of equations, numeric integration, and binary/decimal/hexadecimal calculations.

### n-dimensional array

This function allows declaration of arrays up to *n*-dimensions, limited only by memory capacity. This makes tabular data easier to handle than ever before. (FX-880P/FX-850P/PB-2000C + OM-53B/PB-1000)

### RAM card system

The quick-insert RAM cards can be used for programs or for data analysis and processing. No need for a link-up with an external recording system. (FX-750PF)

### Formula memory

Formula memory gives you instant access to your own most used formulas; you just enter variables without programming. (FX-880P/FX-850P/FX-790P/FX-795P/PB-2000C/PB-1000)

### C language

A simplified system programming language for mainframes, work stations and personal computers. (PB-2000C)

### Prolog language

A predicate logic language suitable for artificial intelligence applications. (PB-2000C + OM-51P)

**116 SCIENTIFIC SOFTWARE UTILITIES** **NEW!**

32 characters by 2 lines

**FOUR TIMES MORE USER PROGRAM AREA THAN THE FX-850P!**

32KB Large-Capacity, 116 Built-in Mathematical, Statistical, and Scientific Software Utilities

**FX-880P** 51 SCIENTIFIC FUNCTIONS DATA BANK

The FX-880P gives you big computer storage capacity in a pocket computer design. 32 kilobytes of RAM can be expanded up to 64 kilobytes for enough storage for virtually any application.

- RAM capacity — Standard 32 kilobytes (64 kilobytes with RP-33 RAM pack).
- Display: 32 columns x 2 lines
- Built-in 116 scientific software utilities
- Formula memory function •DATA BANK function
- n-dimensional array system
- 90 hours on two lithium batteries (CR2032).
- 11.6H x 193W x 78mmD, 197g.

Owner's Manual for easy understanding of hardware and software

**SCIENTIFIC LIBRARY 116**

**BUILT-IN 116 SOFTWARE UTILITY LIBRARY FUNCTION**

The scientific software built into the FX-880P/FX-850P makes it possible to perform a wide variety of sophisticated calculating chores. Matrices, complex numbers, and integrals for mathematics. Regression analysis, interval estimation, and hypothetical tests for statistics. Factoring, element periodic table, electrical and other scientific equations and constants. Simply enter the required parameters to acquire the desired result.

- 1000 Memory calculations
- 5010 Prime factors
- 5020 Greatest common measure/Least common multiple
- 5040 Simultaneous equations (Gauss-Jordan elimination)
- 5050 Quadratic equation
- 5060 Cubic equation
- 5080 Numerical solution (Newton's method)
- 5090 Numerical solution (method of bisection)
- 5100 Matrix operations
- 5200 Numerical integration (Romberg's method)
- 5220 Ordinary differential equation (Runge-Kutta method)
- 5230 Lagrange's interpolation
- 5250 Gamma function
- 5260 Bessel function of the first kind
- 5270 Bessel function of the second kind
- 5280 Modified Bessel function of the first kind
- 5290 Modified Bessel function of the second kind
- 5300 Complex number
- 5350 Binary-Decimal-Hexadecimal
- 5510 Straight line passing through two points
- 5520 Angle of intersection for two straight lines
- 5530 Distance between point and straight line
- 5540 Rotational movement
- 5550 Circle passing through three points
- 5560 Length of tangent lines from a point to a circle
- 5570 Tangent line equation
- 5600 Area of a triangle
- 5605 Area of a trapezoid
- 5610 Area of a parallelogram
- 5615 Area of a circle
- 5625 Area of a segment
- 5630 Area of an ellipse
- 5635 Area of a regular polygon
- 5650 Surface area of a sphere
- 5655 Surface area of a zone of sphere
- 5660 Surface area of a spherical sector
- 5650 Surface area of a circular cylinder
- 5670 Surface area of a circular cone
- 5675 Surface area of a frustum of circular cone
- 5700 Volume of a sphere
- 5705 Volume of a zone of sphere
- 5710 Volume of a spherical sector
- 5715 Volume of a circular cylinder
- 5720 Volume of a circular cone
- 5640 Volume of a frustum of circular cone
- 5730 Volume of a wedge
- 5735 Volume of a pyramid
- 5740 Volume of a frustum of pyramid
- 5745 Volume of an ellipsoid
- 5750 Inscribed circle and circumscribed circle of a regular polygon
- 5760 Regular polyhedron
- 5800 Factorization
- 5810 Trigonometric functions
- 5820 Differential
- 5830 Integration
- 5840 Laplace transformation
- 5900 Periodic table
- 5910 Scientific constants
- 5920 Electrolytic dissociation constants
- 5930 Motion and energy
- 5932 Wave
- 5934 AC and DC circuits
- 5936 Electric and magnetic fields
- 5938 Thermodynamics and others
- 5940 Metric conversions (length)
- 5960 Metric conversions (area)
- 5970 Metric conversions (volume)
- 5980 Metric conversions (weight)
- 6210 Upper probability integrals (normal distribution)
- 6220 Upper probability integrals ( $\chi^2$  distribution)
- 6230 Upper probability integrals (t distribution)
- 6240 Upper probability integrals (F distribution)
- 6310 Upper cumulative frequency (binomial distribution)
- 6320 Upper cumulative frequency (Poisson distribution)
- 6330 Upper cumulative frequency (hypergeometric distribution)
- 6410 Percentage point (normal distribution)
- 6420 Percentage point ( $\chi^2$  distribution)
- 6430 Percentage point (t distribution)
- 6440 Percentage point (F distribution)
- 6450 Normal random numbers
- 6460 Exponential random numbers
- 6500 Statistics
- 6510 Regression analysis (linear)
- 6520 Regression analysis (logarithmic)
- 6530 Regression analysis (exponential)
- 6540 Regression analysis (power)
- 6610 Mean interval estimation (for known variance)
- 6620 Mean interval estimation (for unknown variance)
- 6630 Variance interval estimation
- 6640 Standard deviation interval estimation
- 6650 Variance ratio interval estimation
- 6660 Mean difference interval estimation
- 6670 Ratio interval estimation
- 6680 Ratio difference interval estimation
- 6710 Population mean test (two-sided) (for known variance)
- 6720 Population mean test (two-sided) (for unknown variance)
- 6721 Population mean test (right sided) (for unknown variance)
- 6722 Population mean test (left sided) (for unknown variance)
- 6730 Population variance test (two-sided)
- 6731 Population variance test (right sided)
- 6732 Population variance test (left sided)
- 6740 Variance ratio test (two-sided)
- 6741 Variance ratio test (right sided)
- 6742 Variance ratio test (left sided)
- 6750 Mean difference test (two-sided)
- 6751 Mean difference test (right sided)
- 6752 Mean difference test (left sided)
- 6760 Ratio test (two-sided)
- 6761 Ratio test (right sided)
- 6762 Ratio test (left sided)
- 6770 Ratio difference test (two-sided)
- 6771 Ratio difference test (right sided)
- 6772 Ratio difference test (left sided)

**FX-850P/FX-880P SYSTEM CONFIGURATION**

**The Compact Pocket Computer with Built-in C Language**

Multi-language System using ROM cards

Comes with Owner's manual and Introduction to the C programming language.

Multi-language Capabilities Give You Built-in C Language, with Prolog and BASIC Available with Optional ROM Cards.

**PB-2000C** 32 characters by 4 lines DATA BANK

The PB-2000C comes with C language programming capabilities built in, making it possible to develop programs for mainframes, work stations and personal computers running under this popular language. And, since the PB-2000C is a pocket computer, you're not tied down to a specific location when programming in C. Besides its built-in C interpreter, the PB-2000C also can be operated using BASIC or Prolog, using optionally available ROM cards.

- RAM capacity — Standard 32 kilobytes (64 kilobytes with RP-33 RAM pack).
- Display: Text — 32 columns x 4 lines. Graphics — 192 x 32 dots
- Built-in C language programming capabilities
- Formula memory function •DATA BANK function
- 2-way power source: AC (AD-4175 adaptor) or DC (three lithium batteries (CR2032)).
- 15H x 188W x 83mmD, 249g.

**PB-2000C SYSTEM CONFIGURATION**

**ROM cards available for other programming languages**

**OM-53B BASIC ROM card**  
The widely popular programming language that makes programming easy for everyone. \*Comes with Introduction to the BASIC programming language.

**OM-51P Prolog ROM card**  
A predicate logic language suitable for artificial intelligence applications. \*Comes with Introduction to the Prolog programming language.

**Front Line Computing System with Full Peripherals**

32 characters by 4 lines

Amazing "Touch Sensor" display  
A set of 16 touch keys are built right into the screen, so key input can be performed by simply touching the screen.

**PB-1000** 58 SCIENTIFIC FUNCTIONS ASSEMBLER DATA BANK

PB-1000 mainframe forms center of extensive data processing and computing system, including 3.5 inch floppy disk drive, Centronics printer ... in fact, complete data communication capabilities with RS-232C port. Useful DATA BANK with high memory power, up to 40KB (with RP-32 RAM pack). And advanced programming via an assembler and monitor support machine language facilities.

- 3.5-inch floppy disk drive
- RS-232C port for data communication capabilities
- Centronics standard printer interface \*50H x 342.5W x 229mmD, 1.9kg.
- RP-32** •32KB RAM pack \*5.8H x 67W x 59mmD, 18g.
- FP-40** •40-column thermal printer \*42.5H x 210W x 145mmD, 609g.
- FP-100** •Letter size paper 4-color plotter-printer \*67H x 310W x 129mmD — Folded. \*67H x 310W x 236mmD — Unfolded. \*1.6kg.
- FA-7** •RS-232C port for data communication capabilities
- Centronics standard printer interface
- Cassette interface \*50H x 220W x 229mmD, 949g.
- MF1-DD** •3.5 inch floppy disk
- Single sided, double density, 320KB

- RAM capacity — Standard 8 kilobytes (40 kilobytes with RP-32 RAM pack).
- Display: Text — 32 columns x 4 lines. Graphics — 192 x 32 dots.
- 16 touch screen keys
- Formula memory function •DATA BANK function
- n-dimensional array system •Assembler and monitor
- 55 hours on three AA size batteries (UM-3).
- \*24H x 187W x 97mmD — Folded.
- \*24H x 187W x 176.5mmD — Unfolded.
- \*435g.
- Comes with "Owner's Manual" and "Command Reference".

Owner's Manual for easy understanding of hardware and software

**MULTI-PURPOSE DATA BASE SOFTWARE DATA SPIRIT**

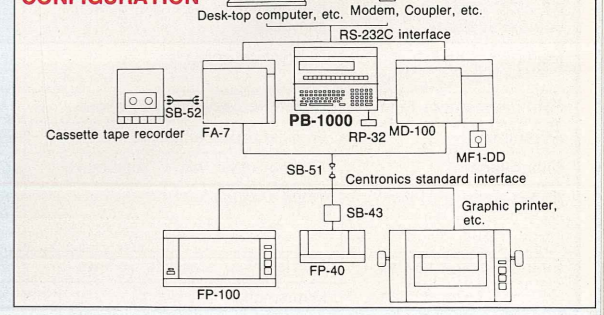

Data Spirit is the first data base software which allows simplified data collection, and storage, as well as tabular, graphic, and statistical operations. Tables can be created up to a maximum size of 20 x 40 (800 items). Formulas can be defined for calculation to be performed in each cell, and vertical/horizontal items can also be defined. Besides this, a total of 16 different graphs, which can be printed in four colors and 23 statistical operations also become available. This program makes all of this possible on the PB-1000, forming a valuable tool which can be used virtually anywhere.

This software requires: PB-1000/RP-32/MD-100/FP-100/SB-51

INCLUDES: 3.5" floppy disk Easy-to-understand manual

**PB-1000 SYSTEM CONFIGURATION**

**PB-120** 27 SCIENTIFIC FUNCTIONS 12 character display DATA BANK

- RAM capacity — Standard 8 kilobytes
- Alphabetic dot matrix display (upper/lower case letters of the alphabet, numbers, symbols and special characters).
- 10 independent program areas
- DATA BANK function
- 130 hours on two lithium batteries (CR2032).
- 9.8H × 165W × 71mmD, 124g.
- Comes with "Easy Guide to Programming"

**3-dimensional Array and Regression Analysis**

**FX-790P** 65 SCIENTIFIC FUNCTIONS 24 character display DATA BANK

- RAM capacity — Standard 8 kilobytes (16 kilobytes with RP-8 RAM pack).
- Alphabetic dot matrix display (upper/lower case letters of the alphabet, numbers, symbols and special characters).
- Assembler simulation function
- Formula memory function
- DATA BANK function
- 3-dimensional array system
- 85 hours on two lithium batteries (CR2032).
- 18H × 142W × 71mmD — Folded. 9H × 142W × 142mmD — Unfolded. \*165g.
- Comes with "Easy Guide to Programming" and "Introduction to Assembly Language"

**FX-750PF** 66 SCIENTIFIC FUNCTIONS 24 character display RAM CARD

- Memory: RAM — Standard 4 kilobytes (expandable to 16 kilobytes with two RC-8 RAM cards), ROM — Approx. 27 kilobytes
- Display: 24 alpha-numeric characters
- 10 independent program areas
- 10 physical constants
- Regression analysis
- Battery life: Main — 120 hours on two lithium batteries (CR2032).
- RAM card (RC-4) — 12 months on one lithium battery (CR2016).
- 16H × 186W × 82mmD, 243g including the RAM card.

**Your Own Ready Reference Library for Math Problems**

- Matrix operations
- Complex number calculations
- Numeric solutions of equations
- Integrals
- Binary / decimal / hexadecimal calculations

**FX-795P** 65 SCIENTIFIC FUNCTIONS 24 character display DATA BANK

- RAM capacity — Standard 16 kilobytes
- Alphabetic dot matrix display (upper/lower case letters of the alphabet, numbers, symbols and special characters).
- Built-in mathematical library (matrix operations, complex number calculations, numeric solutions of equations, integrals, binary/decimal/hexadecimal calculations)
- Formula memory function
- DATA BANK function
- 3-dimensional array
- 80 hours on two lithium batteries (CR2032).
- 19.2H × 142W × 71mmD — Folded. 9.6H × 142W × 142mmD — Unfolded. \*159g.

# PRINTER

Casio has served offices with their calculator-printer needs for many years. Out of this has come a range of machines that are built from a blend of pure experience and superb designing. Keyboard layouts have reached a peak of convenience and printing is getting close to the instantaneous with our more advanced models.

### Mini Printer

Small enough to fit into the palm of your hand, yet capable of printing on standard 58mm wide paper.

### Compact Type

Compact design that fits in almost anywhere prints on standard 58mm plain paper.

### Adding machine system

Accumulates numeric input in memory. Totalization of large amount of data can be performed quickly and accurately. (All models except HR-8A/HR8A-BK/HR-9/HR9-BK)

### Right shift key

Quick corrections of mis-entries with the move-back shift key  $\leftarrow$ . (FR-125S/FR-2500/FR-2600/FR-3100/FR-3200/FR-3400/DR-110N/DR-120N/DR-140N/DR-220T/DR-1212T/DR-8420V/DR-8620)

### Dual roll system

Use the inner roll for simple operation on the go, or the outer roll for office work. (HR-8A/HR8A-BK/HR-9/HR9-BK)

### 58mmW plain paper

Print on 58mm wide standard paper. Even extra-long values are printed out using large numbers. (All models except DR-8620)

### 2-color printout

Positive values in black, negatives in red, for easy checks of calculation results. (HR-110T/HR-120T/FR-125S/FR-2600/DR-110N/DR-120N/DR-140N/DR-220T/DR-1212T/DR-8420V/DR-8620)

### Mark-up/mark-down key

All of the mark-up/mark-down capabilities of an adding machine for simplified cost and profit calculations. (HR-100T/HR-110T/HR-120T/FR-125S/FR-2500/FR-2600/FR-3100/FR-3200/FR-3400/DR-110N/DR-120N/DR-140N/DR-220T/DR-1212T/DR-8420V/DR-8620)

### Delta percent key

One-touch access to ratios and increase/decrease calculations (DR-1212T)

### Desk-top Type

Simply plug it in and you have outstanding print quality power at your fingertips, at home or at the office.

### Heavy-duty Printer

Outstanding durability for heavy-duty performance. Whisks right through the toughest calculating chores.

### Full decimal system

A versatile rounding function provides a choice between cut-off and round-off calculations. (All models)

### Item counter

Item counter permits easy checking of invoices and accounts. (All models except HR-8A/HR8A-BK/HR-9/HR9-BK)

### 3-digit comma markers

Automatic comma markers on both tape and display to easy reading. (All models)

### 3 totalling system

You can accumulate results in all four basic functions at a touch. It gives sub-totals, totals and grand totals. (FR-2500/FR-2600/FR-3100/FR-3200/FR-3400/DR-110N/DR-120N/DR-140N/DR-220T/DR-1212T/DR-8420V/DR-8620)

### $\Sigma$ AB

Total of multiplicands/dividends and products/quotients (DR-1212T/DR-8420V/DR-8620)

### Big display

A newly developed reverse view type display makes it possible to dramatically widen the viewing angle and make characters larger. Since glare of display wiring is reduced, diffused reflection is eliminated. (DR-220T)

### Line printing

Higher speed, superior print quality and silent sounds when compared with the standard serial impact printer. (All DR models and FR-3100/FR-3200/FR-3400)

The Ultimate Match of Brains and Good Looks!

Superior Print Quality and Silent Sounds with Line Printer

# PRACTICAL TYPE

Vast and varied is this latest range of Casio calculators. All models are shaped to give both public and professionals the widest choice, so anyone can find a model specifically suit their purposes.

Superior Print Quality and Silent Sounds with Line Printer

14-digit Printing Lets You Calculate Using Longer Numbers

Giant Display for Easy-to-read Calculation Results!

The Quality Business Printer with More High-powered Features

High Speed Printing — 4.6 Lines per Sec.

High Speed Printing — 4.6 Lines per Sec.

### Metric Converter

Distances, lengths, weights, areas, volumes and temperatures can all be converted to and from metric with the Metric Converter.

### C-power

Unlike conventional solar calculators, C-power models can be used even in total darkness. Solar powered in the sunlight, these models automatically switch over to a 7-year lithium battery when light is insufficient.

### Super solar

Super solar cell — Works even by candlelight (50 lux).

### Key Rollover

Casio's "Key Rollover" provides faster input because it allows you to input values as fast as you like. Even if you input so fast that 2 keys are depressed at the same time, the "Key Rollover" function automatically makes allowances for quick and accurate calculations every time!

### Plastic Keys

Plastic keys keep flying fingers on target during input.

### Currency Converter

Safe, nonvolatile memories hold the keys to rapid currency conversions. Ideal for travellers and international businessmen. Easy to update rates.

### Profit margin percent

Profit margin key gives quick access to prices and profit, and also delivers add-ons, discounts, ratios, increase/decrease values and regular percentages.

### Function command signs

A press of any function key brings a sign to the display, +, -, x, ÷. So no more worries about being in the wrong mode.

### Grand total memory

Combined with the independent memory, the GT memory (grand total memory) eases horizontal/vertical totalling.

### Right shift key

Quick corrections of mis-entries with the move-back shift key (←).

# GAME

Lovable little characters for the youngsters. Realistic thrills and spills with the Exciting Sound Effects Series. Double the fun with the 2-player games. A choice of thrills and adventure from the Casio Exciting Game Series!

### Sound Effects

A variety of interesting sounds make game playing more fun than ever before.

### Exciting Sound Effects

Shots ring out realistically! Missiles whoosh through the air! Pleasant melodies announce the start of the game! Casio original Exciting Sound Effects add more realism and excitement.

### 2-Player Games

It's player against player or player against computer in one-on-one electronic combat!

## Realistic, exciting sound effects!

### ●WESTERN BAR CG-300

Feel the excitement as everyone waits to see what happens to the old drunken sheriff. Join the showdown at the Silver Dollar Saloon.

### ●SUBMARINE BATTLE CG-330

Be the commander of one of the most powerful submarines on the face of the earth. Engage the enemy in an exciting naval battle.

### ●HELI-BATTLE CG-370

Pilot a super attack helicopter in an all-out dog fight to the finish. Use your missiles and bombs to destroy airborne enemy choppers and bunkers on the ground below.

### ●KUNG-FU FIGHT CG-310A

Kick, punch, dodge, and whirl as you fight off the hordes of attackers in the field. Numtjak sticks go whistling through the air as you unleash your non-stop attack of kicks and punches. Test your skills and see who is the real kung-fu kid in your neighborhood!

### ●BATTLE FIELD CG-440

The mood is tense as you lead your convoy of tanks through enemy territory. The road is peppered with mines and there are still pockets of enemy troops to mop up. Suddenly shells scream through the air as the battle starts! Be the commander and lead your tanks on to a stunning victory!

●POWER SOURCE: Two AA-size manganese dry batteries ●DIMENSIONS: 29mm(H) × 135mm(W) × 85mm(D) ●WEIGHT: 152g-158g including batteries.

## Double your fun with 2-PLAYER GAMES!

### ●KARATE FIGHT CG-610

The old master from KWANG-CHI speaks well of your skills. It is now time for the ultimate test of your skill. Prove your worth and become the young master of the art.

●POWER SOURCE: Three alkaline-manganese batteries (Type: LR44) Three silver-oxide batteries (Type: SR44 (G-13), UCC357, 10L14, RW-22 or RW-42)  
●DIMENSIONS: 22mm(H) × 190mm(W) × 101mm(D) ●WEIGHT: 125g including batteries.

## Plus a host of other challenging GAMES!

### ●HUNGRY DRAGON CG-116A

A cute little dragon goes out for a snack of its favorite fruit. But look out! Danger lurks everywhere!

### ●SOS TITANIC CG-117A

SOS! SOS! You are the only one that can help to avoid disaster as you save passengers from the raging seas.

### ●FUNNY WAITER CG-118A

Hot pizzas are flyin' from the kitchen and you're the busy waiter who has to catch them. Keep the customer satisfied and you score!

### ●SPACE RESCUE CG-126

It's an S.O.S. from your comrades on a planet below! You've got to get to the planet's surface and save them, but watch out for alien creatures that lurk in every crater!

### ●JUMPING FROG CG-127

He's a happy-go-lucky frog just looking for a few bugs to snack on—but the waters are infested with frog-eating killer fish, and a pestering salamander likes to throw rocks! Help the hoppin' froggy catch his dinner and you score points!

### ●LOVELY ANGEL CG-128

Cupid's in love with a lovely young maiden. Help him catch her heart as it flies past and her love letters tied to balloons—but be careful, a wicked witch and her cronies are against you! Cupid's heart is on the line, so help him flap his wings and win the maiden's hand!

### ●CROCODILE PANIC CG-129

You're a lifeguard training youngsters to swim at the local swimmin' hole. But the river's infested with vicious, man-eating crocodiles! Swim into position and knock some sense into those snappers with your club.

### ●RABBIT FARM CG-130A

You're a happy-go-lucky rabbit who's just trying to make a living by growing carrots. But the woods are full of hungry wolves who want to have you over for lunch—as the main course! Hit attacking wolves with your club and you score.

### ●CASTLE ADVENTURE CG-131

Dracula and his vampire buddies are on the prowl, and they'd just love to do a little "necking" with your favorite princess! Chivalry to the rescue! You're armed with a sword, so move into position and destroy the fiendish bloodsuckers.

●POWER SOURCE: Two alkaline-manganese batteries (Type: LR44). Two silver-oxide batteries (Type: SR44 (G-13), UCC357, 10L14, RW-22 or RW-42)  
●DIMENSIONS: 11.8mm(H) × 58mm(W) × 83mm(D) ●WEIGHT: 40g-44g including batteries.

# DIGITAL DIARY ADVERTISEMENT

SF-9500  
TV. CF

The Casio Digital Diary.

Now, the vast quantity of data you manage on your computer can be carried on IC cards.

Price lists, inventory and other data are all instantly accessible... wherever you are.

With Casio, the possibilities are endless.

The Casio Digital Diary IC Card System.

**SF-9500  
Newspaper AD**

## THE POSSIBILITIES ARE ENDLESS.

**Unlimited Memory Capacity**  
Each optional ES-300 Dual card provides an additional 640 of external storage with memory backup.

**Expanded Application Software**  
 ■ ES-500 Spelling checker and Thesaurus dictionary  
 ■ ES-510 Spelling checker with financial and legal terms  
 ■ ES-520 Cassi Power Synthesizer with medical terms  
 ■ ES-800 Travel Conversation English-Spanish (available soon)  
 Many more IC cards will soon be available.

**Compatible with IBM PCs**  
Using the interface unit, you can link the SF-9500 with an IBM PC™ or 286™. TOOL Kit (MR-4000) is also available for use with IBM personal computers.

**Wide Range of Database Software**  
Database software are floppy disks storing special information for the following. They are: MF-10, MF-11, MF-12 and MF-13. All are loaded with business and travel information for the world's major cities.

**Easy, Portable Printout of Stored Data**  
With the optional CP-9 Copy Pen, you can print SF-9500 data into a notebook. Or use the CP-9 as a compact color transfer data from any text onto almost any kind of paper.

**Copy Pen CP-9**
